My home is North Carolina, so I'll do my best to help you as you transition into living in Chicago. I love music and fun internet enclaves, so feel free to discuss these subjects with me, I'm always down to trade recommendations!

Currently, I am mainly in the FVNMA department at SAIC with a particular interest in New Media. Most of my work is time-based video work that centers around the whimsy, dreamy, and cutesy- so if you have any questions about Adobe Premiere let me know!

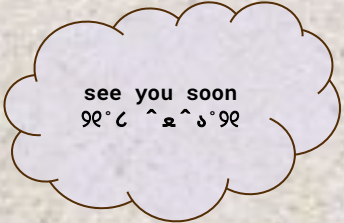

As your RA for the year I hope to connect with you and support you! Reach out if you have any concerns ranging from housing and dorm life to questions about your art practice or food recommendations. This can all be done through emailing me, seeing me in the halls, or at our group/individual meetings!

My ultimate goal is to create a comfortable atmosphere for everyone!
